

NAME: Alessandra Di Pisa  
DATE OF BIRTH: 7 January 1977  
NATIONALITY: Swedish

I am more risk taking than careful, somewhat more impulsive than controlled and more expressive than inhibited. I am more reflective than practical and somewhat more responsible than irresponsible. On the average I'm neither an extrovert nor an introvert.

I am inclined to be interested in ideas, abstractions and philosophical questions, discussions, speculations and knowledge 'for the sake of knowledge'; I am generally thoughtful and introspective, although I do have a practical bent.

I am moderately active and energetic. I don't enjoy physical activity all that much, such as hard work and exercise. It takes me some time to wake in the mornings and I seldom wake early. I don't rush from one activity to another. I have a few different interests.

I enjoy being in company but I don't seek out the company of other people. I can enjoy social functions such as parties and dances but sometimes I may feel uncomfortably in social situations.

I am not particularly reserved, cool or detached but I neither display my emotions outwardly and openly (sorrow, anger, fear, love or hate). I am somewhat sentimental, sympathetic, volatile and demonstrative, but I might appear controlled as regards the expression of my thoughts and feelings.

I am somewhat conscientious, reliable, trustworthy and serious-minded, but I can also appear to be casual, careless of protocol, late with commitments, unpredictable and perhaps socially irresponsible.

I like to live dangerous but never without concern for the possible adverse consequences. I am not a gambler but I do believe that an element of risk may add some spice to life. I don't feel a need for familiarity, safety and security, I would never scarifies some degree of excitement in life for it.

I am inclined to act on the spur of the moment and make hurried decisions. Although I do reflect on what effect my decisions may have. I might appear changeable and unpredictable. I am not very systematic and orderly and cautious and I seldom plan my life in advance. I often speak before I think or 'leap before I look'.
